## SASSAFRAS NUTS

'the farm'

## SASSAFRAS NUTS –ABOUT US

### Location

Our commercial chestnut and walnut farm is located at Sassafras in the Budawang Ranges, approximately 130 km north east of Canberra. It is about 2 hours by car from Canberra, and 2 ½ hours by car from Sydney.

### History

The Sassafras Nuts' orchard was established in the early 1980s as an experimental farm for chestnut growing.

The farm has over 1000 chestnut trees of many varieties, along with several hundred walnut trees. Sassafras Nuts continues to build on past innovations, applying scientific best practice to develop trees most suited to the Australian environment.

### Open to the public

In the autumn, late March to April, Sassafras Nuts welcomes the public to the farm to enjoy the bounty of its harvest.

## FARM ADVENTURE PICK YOUR OWN CHESTNUTS AND HAVE A PICNIC

### A relaxing day out with family and friends

The idyllic natural surroundings of our Sassafras farm make it the ideal place for growing chestnuts and for a relaxing day out.

### Good facilities

The farm has the facilities to make your day memorable – picnic areas, great toilet facilities and easy parking. There is also chestnut roasting and an orchardist on site.

### Come equipped for fun

The Budawang Ranges are slightly cooler and wetter than the surrounding Illawarra region. To make the most of your day, be sure you bring weather proof coats and shoes as well as gloves for picking chestnuts.

Bring a picnic and relax in the fresh mountain air. We supply buckets and bags for picking and packing. Our harvest begins in late March and goes to the third week in April.

**Entry is free.  
Just pay for the chestnuts you pick.**
